

MOBILITY MANAGEMENT SERVICES

A Complete Enterprise Mobility Management Solution

TODAY'S MOBILE-FIRST EXPECTATIONS

Mobile technologies are becoming increasingly ingrained in business - and changing human behaviors. However, mobility-lagging organizations will see negative impacts according to Gartner, Inc., including losing skilled workforce, lower productivity, and reduced satisfaction among customers and business partners.

Renodis optimizes Mobility Management for clients by leveraging innovative process, purpose-built systems, talented people and deep industry relationships.

EXPECT RESULTS. GUARANTEED.

Examples include:

35% reduction in mobility spend

Enhanced mobile device security

25% increase in IT productivity

CLIENTS CHOSE RENODIS WHEN THEY EXPERIENCE CHALLENGES LIKE:

- Real-time inventory and reporting for all mobile assets
- ROI analysis on mobility policies and practices
- Resources to manage MDM/EMM environment
- Capabilities or expertise to do proper mobile plan/expense mgmt
- Staying current with rapid mobile pricing and contract changes
- Quality end user mobility support
